BranchAnywhere Product Launch Kicks Off With Webinar

Indianapolis, IN – May 20, 2010 – Evanced Solutions will be hosting a webinar on Wednesday, June 2, 2010 at 2:00 PM EST to introduce its newest product, BranchAnywhere.

This robot-powered library materials vending solution was previewed in March 2010 at the Public Library Association Annual Conference in Portland, Oregon. Conference attendees discussed the product with Evanced co-founders Todd Cutler and Rob Cullin and suggested features, improvements, and additions for BranchAnywhere. Suggestions were then integrated into the newest iteration of the machine.

The half hour webinar will allow those with interest in BranchAnywhere to preview the product before its official launch at the American Library Association Annual Conference in Washington, D.C. this June. Attendees can ask questions, find out about new features, and discuss the potential uses of the product. More information can be found at: <http://tinyurl.com/branchanywhere>.

“There has been a lot of buzz about BranchAnywhere since we launched the product at PLA,” said Rob Cullin, CSO and Co-Founder. “We’re working to create a sound product that is reliable, stands-up to patron use, and provides quality and value to libraries of all types and sizes. We’re excited to show the final product at ALA Annual Conference.”

A video about BranchAnywhere can be found on the Evanced Solutions' YouTube Channel at:
